教學心得與獲獎感言：

I am honored and grateful to MCU for recognizing my strong vocation as a teacher. It is a privilege to be able to work at the most internationalized campus in Taiwan. I love the cultural diversity and richness of the interactions which outweigh the challenges.

I wish also to thank my students because it is they who give me the spark and determination. Every time I see them, I lighten up. At MCU, I continue to strive for excellence and the development of our students by applying well-proven teaching methods and by exploring novel ways to motivate and inspire them.

I also thank my colleagues because, without the family-like support system in our department, it is hard to imagine having navigated through the challenges.

Finally, I am entirely grateful to my family for their love, patience and support over the years.

Thank you all!
